5 Event hosting - Careers

Cameron had a chat with the Careers committee and they are considering recording careers events, as many people have contacted him afterwards as they were unable to attend the event. However, they are also concerned that attendance numbers may drop if recordings are made available.

Sofia suggested implementing a system where students have to sign up to obtain the recording.
Gretel suggested that we could record the presentations and release them at the completion of all the events.

Cameron asked whether there is a way to track viewers of videos as well so we are able to relay statistics to firms. Sarah confirmed it is possible to create private links or behind a firewall so people need to give their details before they can access the recording.

Cameron also wanted to seek clarification as to why we hold many of our events at 1-2pm. Alison explained that most law classes aren't held during this time. Sarah suggested that perhaps after work hours as an alternate time, however Cameron noted that firm representatives generally

would like to do these events during work hours and Alison noted that attendance is quite low at events held at 6pm.
